

The Genesee/Finger Lakes Regional Planning Council (G/FLRPC) mission is to identify, define, and inform its member counties of issues and opportunities critical to the physical, economic, and social health of the region. G/FLRPC provides forums for discussion, debate, and consensus building, and develops and implements a focused action plan with clearly defined outcomes, which includes programs, personnel, and funding.

G/FLRPC's primary program components include Economic Development; Local, Regional and Water Resources Planning; and a Data, Technology, and a Resource Center (including socio-economic and demographic data, geographic information systems, and mapping services).

Regional Revolving Loan Fund

Making the Success of Regional Business Our Business

G/FLRPC believes that small business owners provide the backbone for the region's economy. In an effort to support this belief, the Genesee/Finger Lakes Regional Planning Council Regional Revolving Loan Fund specifically fills gaps in the local financial market – gaps that inhibit economic development activities considered important to the stability of local communities in the Genesee-Finger Lakes Region.
