GTC's Commitment to the Public

The Genesee Transportation Council assures that no person shall, on the grounds of race, color, national origin, disability, age, gender, or income status, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity. GTC further assures every effort will be made to ensure nondiscrimination in all of its programs and activities, whether those programs and activities are federally funded or not.

En Español

El Consejo Genesee de Transporte asegura que ninguna persona, por motivos de raza, color, nacionalidad, discapacidad, edad, sexo o situación económica, será excluida de participar en ningún programa o actividad, ni se le negarán los beneficios de los mismos, ni será objeto de discriminación de ningún tipo. El GTC, (*por sus siglas en inglés*) asegura además que se hará todo lo posible para asegurar la no discriminación en todas las actividades de sus programas, ya sea que esos programas y actividades estén financiados por el gobierno federal o no.

Chapter 1

INTRODUCTION

Role and Responsibilities

The United States Department of Transportation requires every metropolitan area with a population over 50,000 to have a designated Metropolitan Planning Organization (MPO) to qualify for receipt of federal highway and transit funds. The Governor of New York State designated the Genesee Transportation Council (GTC) as the MPO responsible for transportation planning in the Genesee-Finger Lakes Region, which includes Genesee, Livingston, Monroe, Ontario, Orleans, Seneca, Wayne, Wyoming, and Yates counties.

Given the size of the region, it is divided into three Planning Focus Areas: the Regional Core, the Eastern Regional Area, and the Western Regional Area. The Regional Core includes all of Monroe County plus the adjacent developed areas of Livingston, Ontario, and Wayne counties. (See map on page 2.)

To maintain the certifiable transportation planning process required by the federal government as a precondition for receipt of federal transportation funding, GTC must at a minimum produce and manage three major products:

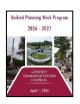

1. Long Range Transportation Plan (LRTP)

This product provides a long range (at least 20-year) perspective of existing and projected transportation system capabilities, needs, and associated objectives, as well as recommended policies and actions to meet these objectives. It provides the framework for guiding federally funded planning and investment decision making in the region. The LRTP must be updated at least every five years.

2. <u>Unified Planning Work Program</u> (UPWP)

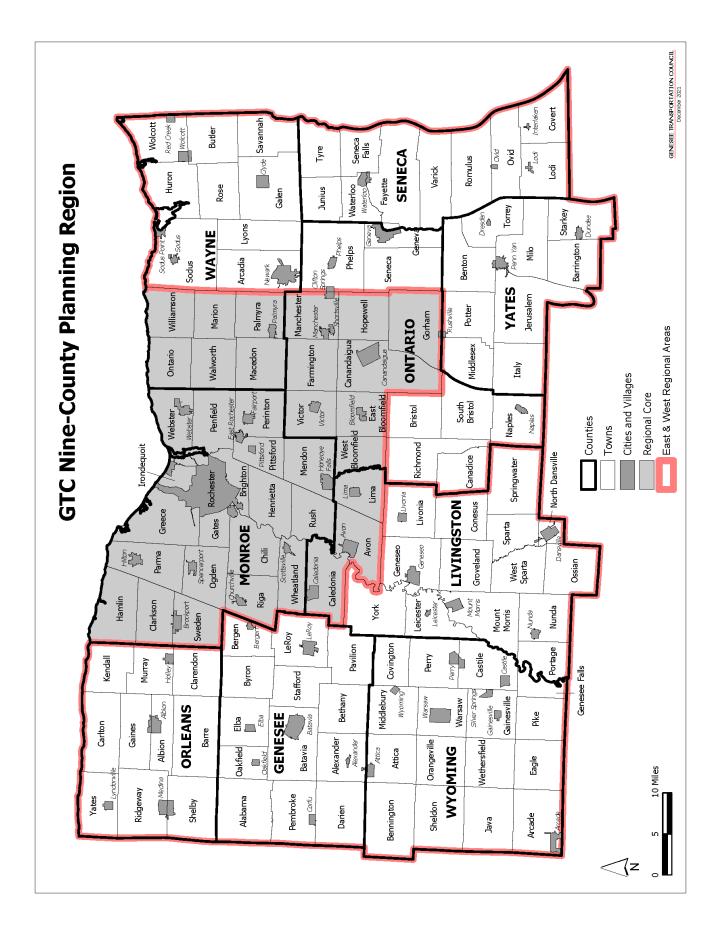

This product programs federally funded transportation planning activities that further develop the policies and actions contained in the LRTP into concept-level projects and programs. The UPWP allocates funding for both specific planning projects and ongoing programmatic activities. The UPWP must be updated at least every two years.

3. Transportation Improvement Program (TIP)

This product identifies and schedules the specific transportation improvements in the region that will receive federal funding over the next four-to-five years. Projects included in the TIP emerge from infrastructure needs identified by member agencies and are often informed by recommendations developed through UPWP-funded initiatives. The TIP must be updated at least every four years.

In addition to these requirements, GTC responds to other government mandates and guidelines such as the Americans with Disabilities Act, Title VI of the Civil Rights Act of 1964, and Environmental Justice considerations.

GTC Structure

GTC is governed by a 27-member policy committee, the GTC Board, which is supported by the Executive Committee, Planning Committee, and various other committees. GTC staff, in conjunction with key staff of GTC member agencies, provides professional and technical support for execution of the programs and policies established by the GTC Board, consistent with the responsibilities identified in the preceding section. Citizen participation is also incorporated at all meaningful levels of program development and decision making.

1. Board

The GTC Board is the governing body of GTC. It provides direction and establishes policy with regard to the roles and responsibilities of GTC as the designated MPO for the region. The GTC Board approves all activities and work products, including the LRTP, UPWP, and TIP.

The 27 members of the GTC Board consist of elected officials from the nine counties of the region and the City of Rochester, as well as representatives of other local, regional, state, and federal agencies. The GTC Board elects its own officers from among its members. (See page 4 for current membership and officers.)

The GTC Board meets quarterly, or as required. Each GTC Board meeting is open to the public and advertised as such through media outlets across the region. A public forum is included at the beginning of each meeting to allow for public comment on meeting agenda items before GTC Board action is taken.

2. Executive Committee

The Executive Committee is a subset of the GTC Board responsible for specific decision making related to administrative, organizational, and financial issues affecting GTC and its staff. It has eight members and meets as needed at the discretion of the GTC Board Chairperson. (See page 4 for current membership.)

3. Planning Committee

The Planning Committee provides professional and technical direction to the GTC Board. With input from the various committees noted on page 5, the Planning Committee reviews and recommends action on all activities and work products that are considered by the GTC Board.

Each member of the GTC Board appoints a representative to the Planning Committee. The Planning Committee representative is typically a transportation or planning professional. The Planning Committee meets eight times per year, or as required. Each Planning Committee meeting is open to the public and advertised as such through media outlets across the region.

GTC Staff Operating Principles

The Mission of GTC is to maximize the contribution of the transportation system to the social and economic vitality of the Genesee-Finger Lakes Region.

The GTC staff Vision to fulfill the Mission can be articulated as:

- > GTC staff will meet and exceed the federal requirements of a Metropolitan Planning Organization by identifying and developing the most practical transportation solutions that meet our customers' needs to improve quality of life and economic opportunity.
- ➤ GTC staff will undertake all activities in a manner that is ethical, unbiased, forward-looking, and responsive to the diverse needs of regional transportation system users resulting in the highest quality products and services possible.
- > GTC staff will commit to continuous improvement in every aspect of our work to foster an organizational culture that effectively and efficiently provides value to and respects the taxpayers who support our efforts financially.
- GTC staff will identify and engage all relevant stakeholders to ensure that a comprehensive, cooperative, and continuous planning process is employed to meet the needs of regional transportation system users.
- GTC staff will serve as a model for planning organizations by providing exceptional service to our customers, employing processes that include all affected parties, utilizing proven and innovative techniques, and creating products that are relevant to implementing agencies and the public.

The GTC staff Values that guide our actions to fulfill the Mission and achieve this Vision are:

Respect

- ... for the diverse needs and issues impacting the region
- ... for our stakeholders' time, opinions, and input
- ... for the need to be prepared and organized to ensure timeliness

> Commitment

- ... to continuous improvement and professional development
- ... to proactively identifying collaborative solutions
- ... to ethical and forthright behavior as public servants

Quality

- ... in every aspect of our processes and products
- ... in the service we provide to our customers
- ... in the appearance and attitude we project

Objectivity

- ... in presenting information to decision makers and the public
- ... in assessing the benefits and impacts of alternatives
- ... in approaching problems without preconceived solutions

> Accountability

- ... for utilizing tax dollars in the most efficient manner possible
- ... for being leaders and stewards of the transportation planning process
- ... for improving transportation's contribution to economic and social vitality

> Relevance

- ... through balancing innovative methods with established standards
- ... through delivering practical analysis and associated materials
- ... through loyalty and hard work on behalf of the region in everything we do

Chapter 2

The Unified Planning Work Program

The Unified Planning Work Program, or UPWP, lists the federally funded transportation planning activities that GTC, its member agencies, and other municipalities in the Genesee-Finger Lakes Region will advance during a given fiscal year.

This UPWP covers the period beginning April 1, 2026 and ending March 31, 2027. It was developed through a cooperative process involving GTC member agencies, GTC staff, and various entities in the Genesee-Finger Lakes Region. Throughout the development process participants identified and prioritized proposed planning initiatives. Transportation planning projects included in the UPWP were selected based on the need, the relationship to other existing or proposed projects, potential implementation capacity, and funding constraints.

UPWP Development Process

While the majority of tasks in the UPWP are on-going or in progress from the previous UPWP, there are a number of new tasks. Each year, GTC solicits project partnerships from GTC member agencies and municipalities throughout the region. This allows GTC to respond to transportation planning needs that might not otherwise be funded given local budget constraints. In essence, local and federal transportation funds are leveraged to support transportation planning activities. Local planning studies that are funded through the UPWP development process must support and advance regional transportation priorities that have been identified in the Long Range Transportation Plan.

The Call for Project Partnerships (the Call) was issued on September 5, 2025. For fiscal year 2026-2027, GTC received applications for 21 projects. The development of the UPWP, and subsequent selection of new tasks through the Call, is guided by the UPWP Development Committee (UDC). The UDC consists of a representative from each county in the Regional Core, the City of Rochester, the Rochester Genesee Regional Transportation Authority, the Genesee/Finger Lakes Regional Planning Council, NYSDOT, and GTC staff. The UDC reviewed all the applications and deliberated to develop a balanced set of new projects, within the available funding, to recommend for GTC Planning Committee consideration.

GTC staff, working with the UDC, developed the Draft *FY 2026-2027 UPWP* for public review and Planning Committee consideration. The Planning Committee approved the release of the Draft for public review at its January 8, 2026 meeting.

A mass email campaign kicked off the UPWP public review process. The Draft was available for public review from January 12, 2026, to February 11, 2026, via http://www.publicinput.com/gtcUPWP, a dedicated webpage to review the draft. The public had the opportunity to provide comments in a variety of ways via the website. They could submit comments directly, send an email, text, leave a recorded voice message in any language, at any time or send traditional mail to the Genesee Transportation Council office. Additionally, GTC staff ensured that there were opportunities to provide the UPWP document in alternative formats upon request.

To reach the general public, GTC published a paid Legal Notice, issued a media release to about 75 news outlets in the 9-county region, and posted across social media accounts.

At its February 12, 2026, meeting, the Planning Committee recommended adoption of the *FY 2026-2027 UPWP* to the GTC Board. The GTC Board considered and adopted the *FY 2026-2027 UPWP* at its meeting on February 26, 2026.

The GTC Public Engagement Plan requires the Planning Committee to classify each individual UPWP task as Administrative, Technical/Data Collection, or Planning/Policy. UPWP tasks that are classified as Administrative or Technical/Data Collection do not require public input as part of project advancement. UPWP tasks that are classified as Planning/Policy require a specific public input component. At a minimum, the public input component includes the formation of a steering committee and public meetings that are advertised and conducted in the spirit of the New York State Open Meetings Law. GTC and our project sponsors can utilize the PublicInput.com platform in conjunction with online meeting services to conduct virtual outreach. We have increased overall public participation in our UPWP led projects by conducting virtual outreach and hosting project websites on PublicInput.com. Traditional in-person meetings and pop-up events are still utilized.

The project schedules included in this document are preliminary and subject to change. GTC provides the public with the up-to-date status of all projects, as current project status reports are provided at Planning Committee meetings and posted on the GTC website.

UPWP Transportation Planning Priorities

In addition to GTC staff working with member agencies through the UDC process to develop the individual tasks that will be advanced, the overall development of the UPWP is guided by federal transportation legislation and planning requirements, along with regional planning priorities identified through the MPO planning processes. The UDC also considers both federal and regional needs throughout the UPWP development process, as explained below.

Federal Transportation Legislation and Planning Requirements

The Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Law (BIL), is the current federal surface transportation authorization that was signed into law on November 15, 2021. GTC staff continue to monitor guidance resulting from the bill and have incorporated provisions into the MPO's planning processes where applicable.

The IIJA/BIL carried forward the ten planning factors first identified in Fixing America's Surface Transportation (FAST) Act, the former five-year surface transportation reauthorization bill. The FAST Act identified and IIJA/BIL confirmed the ten planning factors that must be addressed through the projects and programs at the MPO.

Per 23 CFR 450.306(b):

"The metropolitan transportation planning process shall be continuous, cooperative, and comprehensive, and provide for consideration and implementation of projects, strategies, and services that will address the following factors:

- (1) Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency; (see Task 5210 and 7214)
- (2) Increase the safety of the transportation system for motorized and non-motorized users; (see Tasks 5522, 5531, 6217, 6218, 6230, and 6234)
- (3) Increase the security of the transportation system for motorized and non-motorized users; (see Task 5905)
- (4) Increase accessibility and mobility of people and freight; (see Tasks 6612, 7214, 7579)
- (5) Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns; (see Tasks 4221, 5232, 7214, 7215, 7578, 7707, 7801, and 8141)
- (6) Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight; (see Tasks 6535, 6536, 8741, 8753, 8755, 8756, 8757, 8782, 8783, 8784)
- (7) Promote efficient system management and operation; (see Task 4210 and 4220)
- (8) Emphasize the preservation of the existing transportation system; (see Tasks 6111 and 6536)
- (9) Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and (see Tasks 5710 and 7431)
- (10) Enhance travel and tourism." (see Task 6535, 6536, and 8741)

GTC staff, working with the UDC, ensure to the greatest extent possible that the ten FAST Act Planning Factors are addressed through both existing and new UPWP tasks. Tasks that are particularly relevant to a planning factor are noted above.

In addition, the UPWP addresses Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) Planning Emphasis Areas by advancing the implementation of IIJA/BIL requirements and promoting cooperation and coordination across MPO boundaries through staff participation in the New York State Association of Metropolitan Planning Organizations (NYSAMPO) Working Groups.

Nondiscrimination and Title VI Considerations

Environmental Justice is the name given to a series of laws and regulations which build on Title VI of the Civil Rights Act of 1964 and are intended to prevent discrimination by race, color, national origin, sex, age, disability, minority, or socioeconomic status in any programs, policies, and activities that receive federal funds.

As recipients of federal funds, MPOs such as GTC are required to identify and address the Title VI implications of their planning processes and investment decisions. GTC incorporates Title VI in all of its transportation planning activities, recognizing that such consideration improves both the planning and decision-making processes and the results of these activities.

The Genesee Transportation Council is committed to:

- 1. Avoiding, minimizing, or mitigating disproportionately high and adverse human health and environmental effects including social and economic effects on all communities;
- 2. Ensuring the full and fair participation of all communities in the transportation decision making process; and
- 3. Preventing the denial of, reduction in, or significant delay in the receipt of benefits by all communities.

The Genesee Transportation Council's *Title VI Nondiscrimination Implementation Plan* (2022) is a set of policies and procedures which address how GTC integrates nondiscrimination practices into its planning, public participation, and decision making. The NYSDOT Office of Diversity and Opportunity found it to be in compliance with all applicable Federal and State regulations mandated for a Civil Rights Program on August 1, 2022.

UPWP Planning Priorities for the GTC MPO Region

The Long Range Transportation Plan for the Genesee-Finger Lakes Region 2045 (LRTP 2045), adopted in June 2021, seeks to advance long standing regional transportation needs, such as improving safety, preserving existing assets, and expanding access to alternative modes, while emphasizing the growing need to make transportation services more equitable and accessible for all.

Overall, the regional transportation system routinely surpasses the needs of the region, with relatively quick and consistent commutes, ready access to employment centers and recreational opportunities, and reliable commercial delivery times. However, these needs are not always met equitably. The system favors those with access to personal vehicles. Opportunities to improve accessibility and mobility remain for those who depend on transit, walking, bicycling, and other active modes. As *LRTP 2045* strives to enhance the equity of the transportation system, increasing transportation choice and protecting vulnerable users is paramount to creating a more sustainable future and a more inclusive system. It is in this spirit that the *FY 2026-2027 UPWP* was also developed.

UPWP project proposals must be consistent with the priorities and policies of *LRTP 2045*. UPWP applicants are encouraged to propose projects that advance *LRTP 2045* priorities and policies. For the first time, the updated UPWP application specifically asks applicants to identify one or more *LRTP 2045* recommendations that will be advanced if their proposal is funded.

LRTP 2045 recommendations are organized into five broad topic areas and are directly linked to the ten planning factors listed as part of Section 450.306 of Title 23 of the Code of Federal Regulations, as follows:

1. Health and Safety

Planning Factor #2 – Increase Safety

Planning Factor #3 – Increase Security

2. Access and Equity

Planning Factor #4 – Increase Accessibility and Mobility

Planning Factor #6 – Enhance Integration and Connectivity

3. System Management and Maintenance

Planning Factor #7 – Promote System Efficiency

Planning Factor #8 – Emphasize Preservation

4. Sustainability and Resilience

Planning Factor #5 – Protect the Environment

Planning Factor #9 – Improve Resiliency and Reliability

5. Economic Development

Planning Factor #1 – Support Economic Vitality

Planning Factor #10 – Enhance Travel and Tourism

Individual recommendations are classified under one of the five topic areas listed above. Each topic area is denoted by an acronym. For example, the "Health and Safety" grouping is noted as "HS". Therefore, the first recommended listed under the "Health and Safety" grouping, reads as "HS-1 Design for All Users". *LRTP 2045* recommendations as they relate to new tasks are listed as part of the **New Tasks and UPWP Priorities** section listed below, per the recently updated UPWP application.

Goals and Objectives

The *LRTP 2045* identifies the following goals and associated objectives that reflect local and regional priorities within the context of the planning factors identified in the FAST Act:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency

- The transportation system should support balanced community and economic development of the metropolitan area
- The transportation system should be a distinguishing competitive feature of the metropolitan area relative to other areas, serving the needs of existing businesses and enhancing the region's attractiveness to new business

2. Increase the safety of the transportation system for motorized and nonmotorized users

 Transportation designs, services, and education programs should enhance and protect life, health, and property

3. Facilitate partnerships in planning, financing, and the execution of transportation initiatives

- The transportation planning and decision-making process should be multi-jurisdictional, fostering coordination and cooperation among local, county, state, and federal governments, concerned agencies, and the private sector
- The transportation planning process should be conducted in as open and visible a manner as possible, encouraging community participation and interaction between and among citizens, professional staff, and elected officials
- Financial and non-financial support for transportation initiatives should be provided by all levels of government and the private sector in a fashion which reflects their relative responsibilities for, and/or benefits from, the initiatives and related economic and social impacts
- Innovative financing/partnerships for transportation initiatives that reflect the full scope of interests impacted or served should be explored
- Transportation and transportation-related information resources should be developed and shared in a fashion that promotes informed public and private sector decision making

 Awareness should be promoted regarding the impact of individual, public, and private sector decisions on the quality of mobility and the potential impact of these decisions on others

4. Increase the accessibility and mobility options available to people and freight

- The transportation system should provide the capacity, coverage and coordination necessary to provide mobility to the region's population and commercial activities in a fashion consistent with the overall intent of Goal 1
- Reasonable travel alternatives should be available to all persons in the area regardless
 of age, physical or mental ability, and/or income

5. Promote efficient system management and operations

- The transportation system should be designed and managed in a fashion that minimizes lifetime maintenance and user costs
- Transportation investments should advance the Long Range Transportation Plan's goals and objectives in a fashion which maximizes benefits relative to costs *
- Transportation and land use planning should be integrated in a fashion that optimizes the use of existing transportation and other municipal infrastructure
- Transportation investments should be guided by cooperative planning, design, and maintenance standards to promote system continuity and uniformity across jurisdictional boundaries

6. Protect and enhance the natural environment, cultural heritage and community appearance, and promote energy conservation

- Transportation planning and decision making should support and reinforce local land use and development objectives
- Transportation planning and decision making should recognize local priorities balanced with broader community goals
- Transportation planning and decision making should strive to address issues on a corridor level, recognizing both the multi-jurisdictional component of travel and the interrelationship between transportation and non-transportation policies and investments
- The transportation system should encourage the efficient use of non-renewable energy resources and the exploration of renewable alternatives
- Transportation planning and decision making should strive to embrace designs and processes that respect the natural environment and enhance the overall contribution of the transportation system to community livability

New Tasks and UPWP Priorities

As previously stated, the development of the UPWP is guided by both federal and regional priorities. The UDC prioritized funding for the new tasks listed below. Both federal and regional transportation planning needs will be advanced by the completion of these new tasks. Each new task is listed along with UDC comments (i.e., why the project was prioritized for funding), both the ten Planning Factors and *LRTP 2045* Emerging Issues and Opportunities that are addressed, along with the project's location within the GTC Planning Area.

For more detailed information on these new tasks please see the individual task pages starting on page 21, Chapter 3 *FY 2026-2027 UPWP* Task Descriptions. The relationship to *LRTP 2045* Goals and Objectives for all UPWP tasks is listed in the table on page 19, Relationship between *FY 2026-2027 UPWP Tasks* and *LRTP 2045* Goals Table.

Task 6111 – TIP Best Practices Study, Phase 2

<u>UDC Comments:</u> The TIP is the primary means of federal investment in the surface transportation system, nearing \$500 million of capital projects. Project timing is good as it follows the most recent TIP cycle. Updates an outdated report from 2005.

<u>Planning Factors:</u> (1) Economic Vitality, (2) Safety, (3) Security, (4) Increased Accessibility and Mobility, (6) Enhance Integration and Connectivity, (7) Promote System Efficiency, (8) Emphasize Preservation, (9) Resiliency and Reliability

Federal PEAs: N/A

<u>LRTP Recommendations</u>: MM-18 Corrective Maintenance, MM-19 Repair and Rehabilitation, MM-20 Infrastructure Replacement

<u>Location:</u> GTC Planning Area, excluding Seneca and Yates counties (NYSDOT – Region 4 area)

Task 6218 – Multi County Guiderail Assessment (Genesee, Orleans, and Wyoming Counties)

<u>UDC Comments:</u> Safety focused. Supports maintaining the existing transportation system. Data will have a direct use in the three counties' capital plans.

<u>Planning Factors:</u> (2) Safety, (7) Promote System Efficiency, (8) Emphasize Preservation

Federal PEAs: N/A

<u>LRTP Recommendations</u>: MM-13 Preventative Maintenance, MM-18 Corrective Maintenance, MM-19 Repair and Rehabilitation, MM-20 Infrastructure Replacement

Location: Genesee, Orleans, and Wyoming Counties

Task 7215 – <u>Irondequoit Bay Bridge Project Scoping Study</u>

<u>UDC Comments:</u> This is the largest bridge in our region. The bridge is a major regional east west connection and is near the end of its useful life. Now is the time to scope scenarios for the bridge's future. Project is fully supported by all regional partners.

<u>Planning Factors:</u> (1) Economic Vitality, (2) Safety, (4) Increase Accessibility and Mobility, (6) Enhance Integration and Connectivity, (7) Promote System Efficiency

Federal PEAs: N/A

<u>LRTP Recommendations:</u> MM-10 System Connectivity, MM-20 Infrastructure Replacement, ED-1 Freight Corridor Reliability, SR-10 Redundancy

<u>Location:</u> Town of Irondequoit, Town of Webster

Task 8784 – <u>Manchester Active Transportation Plan</u>

<u>UDC Comments:</u> Engaged local community. Multi-community effort for Countywide active transportation connectivity.

<u>Planning Factors:</u> (1) Economic Vitality, (2) Safety, (4) Increase Accessibility and Mobility, (6) Enhance Integration and Connectivity

Federal PEAs: N/A

<u>LRTP Recommendations:</u> HS-1 Design for All Users, HS-12 Fully Integrated Cycling Network; HS-14 Safe Routes to Community Destinations; AE-1 Primary Equity Considerations, AE-6 Direct Non-Motorized Connections, MM-10 System Connectivity, MM-12 Active Transportation Enhancement

<u>Location:</u> Ontario County, Town of Manchester, Village of Manchester, Village of Shortsville, Village of Clifton Springs

UPWP Revenues

The UPWP programs federal transportation planning funds, as well as matching non-federal funds, for both specific projects and on-going programmatic activities. The two primary sources of federal transportation planning funds are Federal Highway Administration (FHWA) Section 104(d) Metropolitan Planning (FHWA-PL) funds and Federal Transit Administration (FTA) Section 5303 Metropolitan Planning Program (FTA-MPP) funds.

IIJA established a new requirement to dedicate a minimum of 2.5% of the FHWA-PL funds to Complete Streets Planning. New planning studies that FHWA has determined eligible are denoted as such on the relevant Task Description page. For a full explanation of how the Complete Streets Planning funds were utilized, please see Table 5 Safe & Accessible Transportation Options Metropolitan Planning Set-Aside funds - New and Rollover AUDITABLE BUDGET in Appendices on page 117.

FHWA and FTA funds cannot exceed 80 percent of the total UPWP revenues. The remaining 20 percent must come from non-federal sources. The New York State Department of Transportation (NYSDOT) supports metropolitan planning throughout the state via toll credits and in-kind support that accounts for 15 percent of the total UPWP revenues. The remaining five percent of the total UPWP revenue is provided through cash and in-kind support from member agencies and other local and regional project sponsors.

Budget tables are provided for each task. Under the "Use of Funds" both staff time and contractual amounts are listed. Staff time is simply meant to pay GTC or member agency staff to assist with completing the given task. Contractual is money that is set aside to hire consultant services. Therefore, contractual funds are not spent down at the same rate as staff time. Funds that are shown as contractual are carried over from year to year until the

contracted amount is spent down (i.e., consultant performs and bills for services completed) as the task progresses. Consequently, funds that are listed under contractual have been committed to tasks and consultants via a legally binding contract (i.e., encumbered) and are not available to be applied to other tasks.

Last Year's Transportation Planning Accomplishments

Over the last fiscal year, April 1, 2025, through March 31, 2026:

The GTC Board accepted reports as evidence of completion for the following projects:

- 2024 Monroe County Land Use Monitoring
- Monroe County Traffic Signal Preemption Study
- Transportation Improvement Program (TIP) Best Practices Study, Phase 1
- Joseph Avenue ArtWalk Master Plan
- Rt. 96 Over Rt 14 Strategic Divestment Analysis
- Greater Rochester Transportation Management Association Feasibility Study
- Regional Alternative Fuel Vehicle Infrastructure Tools
- Genesee-Finger Lakes Regional freight plan Update
- Ontario County Freight Rail Corridor Development Plan: Area 2

Progress was made on projects addressing major transportation planning initiatives, including:

- Town of Rush Pedestrian/ Bicycle Safety & Connectivity Plan
- Wyoming County High Accident Location Program
- Genesee Riverway Trail Completion Study
- Village of Fairport Zoning Code Update
- Genesee-Finger Lakes Regional Thruway Detour Management Plan
- Ontario County Access Management, Complete Streets, and Resiliency Project
- Mount Read Boulevard Corridor Study Update
- Town of Gates Active Transportation Plan
- Monroe County Active Transportation Implementation Plan
- City of Rochester Alleyway Reactivation and Conversion Program
- Genesee Valley Park (GVP) Olmsted Arched Bridges Restoration Plan

FY 2025-2026 UPWP Task Descriptions

1000 – Program Administration

To support and manage the UPWP tasks, the following administrative initiatives will be advanced:

1100 – GTC Administration

Objective: To carry out the necessary administrative activities related to the day-to-day functions of staff

and office management; staff development and material support; program, fiscal, information systems, and records management; contract administration; state and federal reporting requirements; and to support and meet the logistical needs of the various GTC committees.

Classification: Administrative

Participants: GTC staff (Lead Agency), NYSDOT, FHWA, FTA

Budget:

Note: All office supplies, travel expenses, and printing costs are included in this Task.

1300 – NYSDOT Program Support (Toll Credits & In-kind)

Objective: To provide NYSDOT participation and support of various GTC activities.

Classification: Administrative

Participants: NYSDOT (Lead Agency)

Budget:

Sources of	f Funds	Uses of	Funds
	FY 2026-27		FY 2026-27

<u>Total</u>	\$912,934	<u>Total</u>	\$912,934

Process: Provide direction to and participate in GTC activities, including but not limited to preparing for

and attending meetings and presenting, reviewing, and commenting on various UPWP task

products.

Schedule: 1. NYSDOT participation in GTC activities Ongoing

Products: 1. Interagency memoranda and correspondence on various aspects of the GTC program

1600 – Program Reserve

Objective: To provide flexibility to respond to changing program priorities and/or unforeseen expenses

associated with existing UPWP projects in order to complete them in a quality fashion.

Classification: Administrative

Participants: GTC staff (Lead Agency)

Budget:

Sources of	Funds	Uses of	Funds
	FY 2026-27		FY 2026-27
<u>Federal Funds</u>		<u>GTC</u>	
FHWA	\$40,000	Staff	\$0

Local (Cash)	0	In-kind Exp.	0
Subtotal	\$0	Subtotal	\$0
<u>Total</u>	\$250,294	<u>Total</u>	\$250,294

(A portion of the FTA funds (\$200,294) are designated for an RGRTA project expected to be approved in January 2026)

Process: There are two basic processes associated with the Program Reserve:

1. Request for supplemental funding: Lead Agency of a current UPWP project submits request for supplemental funding to GTC staff with justification for additional funds. GTC staff considers and makes recommendation to Planning Committee. Planning Committee reviews and recommends action to GTC Board on pending allocation of supplemental funds.

In addition, material changes in project scope and/or intent must be submitted to the GTC Board for consideration.

2. Project funding reduction/rescission: GTC staff identifies need to reduce or rescind UPWP funding due to a change in priorities, lack of progress on a project, or project cost savings and makes recommendation to Planning Committee. GTC staff notifies Lead Agency of pending reduction or rescission of UPWP funds and provides an opportunity for review at a regularly scheduled Planning Committee meeting. Planning Committee reviews and recommends action to the GTC Board on pending reduction or rescission of UPWP funds.

Any reduced or rescinded UPWP funds will be assigned to Program Reserve until they are reprogrammed as supplemental funding or the end of the fiscal year.

Schedule: 1. Reprogram funds to/from Program Reserve As Needed

Products: 1. Documentation of program changes as appropriate

1610 – Healthcare Contingency

Objective: To provide budget relief should a covered person experience extraordinary medical expenses.

Classification: Administrative

Participants: GTC staff (Lead Agency)

Budget:

Sources of	Funds	Uses of	Funds
	FY 2026-27		FY 2026-27
Federal Funds		<u>GTC</u>	
FHWA	\$80,000	Staff	\$0
FTA	20,000	Contractual	100,000
Subtotal	\$100,000	Subtotal	\$100,000
Matching Funds State (In-kind) Local (In-kind) Local (Cash) Subtotal	\$0 0 0 \$0	Other Agency Staff Contractual In-kind Exp. Subtotal	\$0 0 0 \$0
<u>Total</u>	\$100,000	<u>Total</u>	\$100,000

Process:

GTC staff participates in health insurance for a large group through its fiscal agent, RGRTA. Several years ago, RGRTA enacted a health insurance plan that is partially self-funded with stop loss coverage. This Contingency would provide budget relief should a covered person experience extraordinary medical expenses, such as the need for ICU care. If such an instance were to occur, the GTC Executive Director would reach out to the RGRTA Finance Department. Only after concurrence that the medical event, and associated expenses, was extraordinary would the Contingency funds be used. This provides an independent check that using the Contingency is appropriate.

Schedule:

1. Reprogram funds to cover medical expenses As Needed

1. Documentation of program changes as appropriate Products:

2000 - Community Participation

To ensure that all interested stakeholders in the Genesee-Finger Lakes Region are aware of GTC transportation planning and programming activities and have the opportunity to participate in them, the following tasks will be advanced:

2100 – Community Relations

Objective: To ensure that the general public, private concerns, and civic and special purpose organizations

are aware of and have appropriate opportunities to participate in the transportation planning

process.

Classification: Planning/Policy

Participants: GTC staff (Lead Agency), public, private, and not-for-profit partners

Budget:

Sources of	f Funds	Uses of	Funds
	FY 2026-27		FY 2026-27
<u>Federal Funds</u>		<u>GTC</u>

<u>Total</u>	\$166,345	<u>Total</u>	\$166,345

Process:

Implement the 2021 Public Engagement Plan. Update the 2021 Public Engagement Plan. Inform the public of GTC activities through mailings, media releases, reports, social media, and the website. Balance outreach so that all population groups, including minority, low-income, people with disabilities, and limited English proficiency have opportunities to participate in GTC processes and programs. Form advisory groups as needed to provide forums for sharing information with the public.

Continue a flexible approach to conducting public outreach and community engagement, including a variety of formats such as in-person and virtual meetings. Continue to leverage capabilities of a community engagement software service in conjunction with online meeting services to conduct virtual outreach.

Incorporate Americans with Disabilities Act, Title VI of the Civil Rights Act of 1964 considerations into transportation planning activities (activities associated with these considerations are coordinated and funded on a centralized basis through this UPWP Task). Update the 2022 Title VI plan for the region.

Schedule: 1. Utilize public involvement tools

Ongoing 2. Update and maintain GTC website, library, databases Ongoing 3. Advance recommendations of Title VI Implementation Plan Ongoing 4. Prepare Title VI Implementation Plan Annual Report Annual

5. Assist NYSDOT in advancing local Americans with

Disabilities Act (ADA) Transition Plans Ongoing 6. Update the 2021 Public Engagement Plan August 2026 7. Update the Title VI Plan August 2026

Products: 1. Up-to-date mailing database

2. Reports and information on special subjects or legislation

3. GTC website (www.gtcmpo.org) and social media outlets

4. Library of transportation resources

5. Selected documents in translation

6. Public and committee meeting agendas, minutes, communications, and schedules

7. Updated Public Engagement Plan

8. Updated Title VI Plan

2200 – Interagency Liaison

Objective: To ensure that agencies and organizations participating in, impacted by, or affecting GTC

planning, investment, and policy making efforts are appropriately engaged and informed about the relevant elements of these activities and related concerns, as well as to ensure that local

agencies and organizations are aware of GTC's functions, capabilities, and resources.

Classification: Planning/Policy

Participants: GTC staff (Lead Agency)

Budget:

Process:

Maintain and strengthen relationships with municipal, county, regional, state, and federal participating agencies through meetings, conferences, memoranda, reports, and other communications. Serve on agency and interagency committees, boards, and task forces as appropriate.

Schedule:

Participate in and coordinate interagency activities
 Prepare memoranda/reports/correspondence as needed
 Ongoing

Products:

- 1. Meeting agendas, minutes, communications, and schedules
- 2. Participation in interagency coordination activities
- 3. Participation in the New York State Association of Metropolitan Planning Organizations (NYSAMPO)

3000 - Organizational Development

To advance and refine activities to achieve the goals and objectives of the LRTP, the following tasks will be advanced:

3100 – Strategic Planning

Objective: To identify opportunities for GTC staff to execute their programmatic and administrative

responsibilities more effectively through monitoring and evaluation of regional priorities in the context of available resources, federal requirements, and noteworthy practices of other agencies

and organizations.

Classification: Administrative

Participants: GTC staff (Lead Agency), GTC member agencies

Budget:

Sources of Funds		Uses of Funds

Process:

Continue to assess GTC staff operations with respect to findings and information on/from other MPOs and public and private organizations. Assess and revise (as necessary) GTC staff operating responsibilities and procedures. Address program priorities and resource allocations. Continue to monitor relevant legislation and produce informational products that communicate how said legislation impacts the region's surface transportation priorities. Present findings to appropriate GTC committees and provide updates as necessary.

Schedule: 1. Assess GTC staff operations

Ongoing

2. Provide updates to GTC committees as needed

Ongoing

Products:

1. Analyses of relevant items (as needed)

2. Presentation materials for GTC committee updates (as needed)

3. Updated GTC staff job descriptions (as needed)

4000 - Data Development and Analysis

To gather transportation-related data and facilitate the advancement of studies conducted by GTC staff and other agencies in the Genesee-Finger Lakes Region, the following tasks will be advanced:

4210 – Monroe County Land Use Monitoring (2025)

Objective: To document land use and development trends in Monroe County for use in updating the GTC

Travel Demand Model.

Classification: Technical/Data Collection

Process:

Monitor and update demographic and employment data required for the model (obtained, in part, from UPWP Tasks 4210 and 4220) at the Transportation Analysis Zone-level. Conduct travel demand and air quality emissions analyses. Work with the "on-call" consultant and New York State Association of Metropolitan Planning Organizations Modeling Working Group to assist in running and enhancing the model as needed. Evaluate additional model updates (e.g., freight component). Participate in, and support, meetings with other New York State MPO modeling staff and statewide modeling initiatives.

Schedule:

Respond to member agency and community requests
 Prepare presentation tools/analysis for internal use
 Enhance and update model
 As Needed
 As Needed

- 1. Travel demand model outputs (volumes, congested speeds, etc.) associated with projects undertaken by GTC staff and/or GTC member agencies
- 2. Enhanced and updated GTC Travel Demand Model
- 3. Technical memoranda describing changes to the model

5421 – Household Travel Data Collection

Objective: To obtain updated household travel and trip information that will be used to improve the accuracy

of the GTC Travel Demand Model.

6218 – Genesee, Orleans, and Wyoming Multi-County Guiderail Assessment

Objective: To assess the condition of existing guiderail systems on county roads within Genesee, Orleans,

and Wyoming Counties by evaluating potential upgrades and/or replacements to existing guiderail

systems and identifying locations for new guiderail installations.

Classification: Technical/Data Collection

Participants: Genesee County, Orleans County, Wyoming County (Lead Agencies), GTC staff

9000 - Related Studies

This section includes representative studies of statewide or regional significance. These studies do not appear on the UPWP tables since they are not being carried out as part of the UPWP process. They are included here for informational purposes about other planning activities that relate to those being conducted under the UPWP.

9100 – NYSDOT Statewide Studies

Pavement Condition Data Collection Services

Collect pavement condition data as necessary to comply with annual state and federal requirements as well as NYSDOT pavement management practices. Develop and maintain a system to track location, dimension, and condition of other highway related assets.

Statewide Coordination of Metropolitan Planning Programs

The goal of this project is to support and maintain the ongoing coordination of the metropolitan planning programs in NYS for statewide benefit; the ongoing collaboration of the fourteen (14) metropolitan planning organizations (MPOs); and the on-going coordination of metropolitan and statewide planning programs.

Traffic Data System

Implement an automated traffic data management system application.

New York State Transportation Master Plan

The goal of this project is to produce an updated, statewide long-range transportation plan to coordinate federal and state transportation planning activities.

Nationwide Personal Transportation Survey (NPTS), Census Transportation Planning Program (CTPP), Intercity Travel (ATS) and Travel Patterns for NYS

The goal of this project is to establish research and analysis capability with Oak Ridge National Labs (ORNL), Center for Transportation Analysis, to assist NYS in analyzing national data.

Research, Development & Support of an Integrated Planning & Performance Data & Analytics Framework (PPDAF)

The goal of this program is to leverage the current analysis tools to research and further integrate travel time datasets and available open-source analytics tools with other transportation, economic, and demographic data to support efficient and consistent planning and analysis.

Program & Project Management System Support Services

The goal of this program is to provide support services for post-implementation of a department-wide enhanced and improved enterprise level program and project management system to facilitate improvements to capital program delivery.

Highway Oversize/Overweight Credentialing System (HOOCS) Phase 2

The goal of this program is to implement a Commercial Off-the-Shelf (COTS) HOOCS software solution and obtain accompanying integration services necessary to fulfill NYSDOT's Central Permitting Bureau business requirements. Phase 2 will advance functionality of HOOCS.

Accelerating the Use of Integrated Incident Management System (IIMS) for Traffic Incident Data Collection and Management

The goal of this program is to demonstrate the ability of an enhanced IIMS to provide improved sharing of incident reporting between First/Secondary Response teams and operations centers to: improve situational awareness, enhance coordinated response to incidents and safety of incident scenes, reduce incident duration and impact (lane closures, delay, and occurrence of secondary incidents) using analytical tools that correlate IIMS w/vehicle sensor and other data sources.

Statewide Mobility Services Program

The goal of this project is to continue, and expand on, NYSDOT's agency-wide efforts to support and encourage the use of sustainable and efficient modal options for travel, while addressing the goals of the NYS Climate Leadership and Community Protection Act (CLCPA) to reduce GHGs 85% and achieve economy-wide carbon neutrality by 2050. It will build on the efforts of the existing Statewide Active Transportation Demand Management (ATDM) and will include additional technical assistance program elements, policy research, pilot initiatives and partnerships with employers, large institutions, destination, neighborhood and community organizations, local governments, and mobility providers. Work products are expected to result in products that specifically integrate mobility into existing NYSDOT policies, programs, projects, and protocols. This will include but is not limited to: regional and state-wide project development, prioritization, and programming; corridor plans; integrated multi-modal systems management and transportation management center (TMS) operations; and freight analysis.

TRANSEARCH Data

The NYS Department of Transportation (DOT) desires to maintain and regularly update key data and forecasts to support short and long-range economic development, infrastructure, and environmental quality planning throughout the state. To achieve this goal, the DOT needs modal commodity freight flow data and profiles of the state and sub-state areas, trade areas and projections of this data into the future.

Highway Work Permit System Enhancement

The goal of this program is to continue developing enhancements to the design of the PermiTrack online permitting system for highway work permits (HWP) and implantation of system.

NYS Resiliency Improvement Program

Develop a NYS Resilience Improvement Plan (RIP) to help guide the immediate and long-range planning activities and investments of the State in respect to the resilience of the surface transportation system.

Employment / Establishment Data Acquisition

Access up-to-date employer and establishment data containing industry classification, employment and sales information that will contribute to modeling the use of a multimodal system by highlighting demand and supply areas, anticipate growth of need and increasing safety.

Speed Probe Data

The goal of this project is to purchase floating car probe data to establish performance targets to assess travel reliability, congestion and emissions, and to perform other analyses and visualizations of road performance for both passenger cars and trucks.

Bus Safety Inspection Program

The goal of this project is to replace the existing 25+ year old mainframe system with a new modern server-based IT system.

Statewide Coordination of Metropolitan Planning Programs

The goal of this project is to support and maintain the ongoing coordination of the metropolitan planning programs in NYS for Statewide benefit; the ongoing collaboration of fourteen (14) metropolitan planning organizations (MPOs).

State Rail Plan

The goal of this project is to update the NYS Rail Plan, which will provide a comprehensive plan for the immediate and long-range planning activities and investments of the State with respect to freight, intercity passenger, commuter, and tourist rail.

Demographic, Economic and Construction Materials Forecasts

The goal of this project is to provide ongoing and future information on current conditions and forecast information on demographics, economic trends and drivers, construction materials as well as connections to leading economists which will provide NYSDOT insight into how travel patterns and needs may change.

Wildlife Habitat Connectivity

This project supplements wildlife habitat connectivity efforts with additional scope of work and resources to improve connectivity.

Continuous Counts

The goal of this project is to conduct the continuous count traffic count program with full performance-based maintenance and upgrade services to provide better coverage, distribution, and differentiation by functional classification of roadway, geographic area, and seasonality of traffic patterns.

NYS Wildlife Crossing Pilot Program

To obtain a consultant to create a toolkit assisting decision-makers in identifying and prioritizing roadways throughout NYS in need of reduced Wildlife-Vehicle Collisions (WVCs).

9200 – NYSDOT Regional Studies

Continuous Count Traffic Count Program, Zone 2

This initiative is the continuous count (CC) traffic count program for Zone 2 with full performance-based maintenance and upgrade services in Zone 2 to provide better coverage, distribution, and differentiation by functional classification of roadway, geographic area, and seasonality of traffic patterns. Zone 2 includes the western half of the state (Region 3, 4, 5, 6).

Short Count Traffic Program (2025-2029)

The goal of this project is to provide for the collection of traffic data across NYS. This will be achieved by contracting for the collection of that data. NYSDOT's 11 Regions, including Interstates and Expressways, will be grouped into 10 zones.

9300 - NYSAMPO Shared Cost Initiatives

As part of the UPWP development each year, the 14 MPOs in New York State (NYSAMPO) collectively reserve a limited amount of federal transportation planning funds to fund a series of statewide shared cost initiatives (SCIs) and pay annual dues to the Association of Metropolitan Planning Organizations (AMPO). As available, NYSDOT has made FHWA Statewide Planning and Research (SPR) funds available to NYSMPO to supplement Drats funded with FHWA PL and FTA MPP funds.

NYSAMPO Staff Support

Objective: Provide administrative and technical support for NYSAMPO efforts, including working groups. Cost: \$300,000 total (\$200,000 FHWA PL / \$40,000 toll credits; \$80,000 FHWA SPR / \$20,000 State match) Lead Agency: Capital Region Transportation Council

NYSAMPO Staff Training

Objective: Provide relevant training and professional development opportunities for the staffs and member agencies of the MPOs.

Cost: \$206,124 total (\$125,000 FHWA PL / \$25,000 toll credits; \$44,898 FTA MPP / \$11,225 NYSDOT IKS)

(see detail sheet on next page)

Lead Agency: Genesee Transportation Council

AMPO Dues

Objective: Ensure that MPOs are aware of and considered in the development of national transportation policy.

Cost: \$54,430 total (\$54,430 FHWA PL / \$10,886 toll credits) Lead Agency: Binghamton Metropolitan Transportation Study

9310 – NYSAMPO Staff Training

Objective: To provide relevant training and professional development opportunities for the staffs and

member agencies of MPOs.

Classification: Administrative

Participants: GTC staff (Lead Agency), other NYSAMPO staffs, NYSDOT

Budget:

9400 - Regional Plans and Studies

Comprehensive Economic Development Strategy (CEDS)

As the planning agency for the federally designated Economic Development District, G/FLRPC coordinates the development of the CEDS. The CEDS results from a local planning process designed to guide the economic growth of an area. This process helps create jobs, foster more stable and diversified economies, and improve living conditions. The CEDS process provides a mechanism for coordinating the efforts of individuals, organizations, local governments, and private industry with respect to economic development.

Finger Lakes Regional Economic Development Council Strategic Plan(s)

First formed in 2010, the Finger Lakes Regional Economic Development Council is charged with developing an economic strategic plan to capitalize on the existing and emerging industries that provide the greatest opportunities for economic growth. In 2023, the regional council published the *2023 Finger Lakes Regional Economic Development Council Strategic Plan Update & Challenges Competition* which sought to align economic development with economic inclusion for all the region's residents. In 2024, the regional council issued the *2024 Finger Lakes REDC Annual Report*, updating the economic progress made to date on the 2023 Strategic Plan.

ROC the Riverway

The ROC the Riverway Initiative comprises over two dozen potential capital projects along the Genesee River. The projects include implementation of components of the GTC Regional Trails Initiative, Downtown Master Plan, and the Local Waterfront Revitalization Program. The advisory board is chaired by the Finger Lakes Regional Economic Development Council. In 2018, New York State announced an initial commitment of \$50 million to implement the first phase of the Initiative which consists of 13 projects. Since then, additional projects have been added to the overall program.

Climate Pollution Reduction Grant (CPRG) Program

The Genesee-Finger Lakes Regional Planning Council is the lead agency in the Rochester area for the development of a Priority Climate Action Plan (PCAP) funded through the Environmental Protection Agency (EPA). The Genesee Finger Lakes Regional PCAP focused on three sectors: Municipal Operations; Transportation; and Building. The PCAP was submitted to the EPA in March 2024. The Comprehensive Climate Action Plan (CCAP) is part of the CPRG program, and this plan will touch on all significant GHG sources and sectors that impact the Region. The CCAP will establish near-term and long-term emissions reduction goals and provide strategies and identify measures to achieve those goals. The CCAP is due to the EPA in December 2025.

Safe Streets and Roads for All (SS4A)

Objective: A four-year regionwide safety planning program, which will result in ten local Road Safety Plans, up to 40 Site Investigations, up to eight Roadway Safety Audits, data collection equipment, public engagement events, and planning support for a community driven complete streets program and downtown curb extension mural program.
